all-steel housing**

**Stronger,
ergonomic handle**

**Tubed tires for
less maintenance**

**Split-stream, easy-
control deflector**

Model LB 270H

LITTLE WONDER® Optimax maximum output blowers are perfect for moving leaves, debris and standing water—or for any job that requires hurricane-force air. As always, our blowers feature a patented, split airstream discharge, which moves debris at the top and bottom of the pile, eliminating “blowback”. And thanks to our new design, you the operator have control of the split-stream deflector at the handle, which means no more manual shifting. Push and self-propelled models are listed below.

OPTIMAX

PUSH MODEL	LB 270S	LB 270H	LB 390H	LB 400S
